- <http://www.linkedin.com/in/luis-arturo-dominguez-alatorre>

Profile

Software engineer with a strong focus on front-end development, skilled in building intuitive applications using modern technologies and best programming practices. Committed to continuous learning and improvement.

Education

- SONORA TECHNOLOGICAL INSTITUTE 2024
- ENGLISH BI III

Experience

Professional Internship at Down Obregon | Front-end Developer | January 2024 – May 2024

Designed and developed an academic-administrative system, leading requirements analysis, diagram design, and use case development. Built the front-end using JavaScript, managed version control with GitHub, and created system diagrams with Lucidchart.

Centro Nutricional JAMA | Front-end Developer | August 2023 – December 2023

Designed and developed a Java application with MySQL for patient registration and personalized diet assignment based on registered dishes. Implemented Singleton and Factory design patterns to ensure a scalable architecture and improve code maintainability.
